

# YESTAY YESSENBAY

## Software Engineer

 <https://github.com/yeriqqen>

### RELEVANT COURSWORK

Machine Learning	OOP	Full Stack Development	Linear Algebra
Algorithms	Computer Architecture	Computer Graphics	Differential Equations
Digital Design	Deep Learning	Data Structure	Python

### WORK EXPERIENCE

#### DEP, Gwangju, South Korea (Remote) – Full Stack Web Developer

2025–Present

- Created easy-to-use APIs for third-party integrations, enhancing the functionality of existing applications without compromising on performance or security.
- Increased website performance by optimizing front-end and back-end code for faster loading times.
- Reviewed code, debugged problems, and corrected issues.

#### DEP, Gwangju, South Korea (Remote) – Full Stack Developer Intern

2025, 2 months

- Introduced to company tech stack, namely: React, Angular, Next.js, WordPress, GSAP, Tailwind CSS, Node.js, NestJS, Prisma ORM, PostgreSQL, Docker, Nginx, PM2.
- Conducted regular code reviews to maintain high-quality coding standards across the development team.
- Worked with senior developers and designers to implement DEP website based on NestJS server and NextJS frontend.
- Developed, coded, modified, debugged and deployed web applications of varying degree of complexity with full independence.

#### Yerezhepova Law, P.C., NEW YORK, NY, United States (Remote) – Translator

2022–2024

- Translated various documents from Russian and Kazakh to English of over 10,000,000 symbols; designed 1000+ pdf documents; accounted for 200+ customers. Typing skills: English (proficiency: C2) – 70 wpm; Kazakh (C2), Russian (C2), Korean (B2), Turkish (C1) – 60 wpm.

### EDUCATION

#### BACHELOR IN COMPUTER SCIENCE, GWANGJU INSTITUTE OF SCIENCE AND TECHNOLOGY

2023–2027

Full scholarship recipient

#### FULL STACK DEVELOPMENT, RECURSIA.KZ

2024–2025

Gained hands-on experience building full-stack applications using modern technologies including Vue.js on the frontend and Laravel on the backend.

### WEB DEVELOPMENT SKILL

#### Frontend

- React.js proficiency
- Angular experience
- Next.js
- Vue.js

#### DevOps

- Software optimization
- Nginx configuration
- Managing db servers
- Containerized environment managing

#### Backend

- PHP development
- Laravel
- Node.js
- NestJS
